

# קאָמפּיוטער־ייִטערמינען

## Kompyuteray-terminen

דערהיינטיקט updated 4/20/2002 12:33:39 PM

דער ווייטערדיקער גלאָסאַר האָט מען אַנטוויקלט פֿונעם גלאָסאַר וואָס יאַנקל האַלפּערן האָט געזאַמלט מיט דער הילף פֿון דער בליצפּאַסט־רשימה וואָס הייסט „פּיאָפּ, – (UYIP) “פֿאַרשטיין ייִדיש־אינפֿאַרמאַציע־פּראָצעסירן“. אויב איר האָט נאָך ווערטער צוצוגעבן זאָלט איר אָנקוקן דאָס וועבזײַטל: <http://www.uyip.org/> צו לייענען וועגן ווערן אַ מיטגליד פֿון דער שמועס־רשימה. זײַט אַזוי גוט פֿאַרשטייט אַז די רשימה איז נאָר אויף אַרומצורעדן; דאָס איז נישט דאָס לעצטע וואָרט וועגן דעם ענין.

ד״ר מרדכי שעכטער אַרבעט שוין אויף אַ נייעם ייִדיש־ווערטערבוך פֿון ווערטער פֿאַר דער נייער וועלט פֿון טעכנאָלאָגיע. אונדזער ציל איז אַז מיר זאָלן דיסקוטירן די רשימה אַ קורצע וויילע און צוגעבן נאָך ווערטער. דערנאָך וועלן מיר פֿאַרבעטן ד״ר שעכטער אַ קוק צו געבן און אַרײַנצונעמען וואָס ער וויל אין זײַן ווערטערבוך. איצט פֿאַרבעטן מיר אַלעמען זיך צו באַטייליקן אינעם וויכטיקן פּראָיעקט!

(דעם נוסח האָט שאַשקע־רייזל יוני טיפּירט. אויב איר זעט טעותן, שיקט איר אַן אַנזאָג צו [sjuni@nyc.rr.com](mailto:sjuni@nyc.rr.com) אָבער אַלע באַמערקונגען וועגן דעם תּוּכּן אַליין זאָל מען בלויז שיקן UYIP פּדי מע זאָל שפּעטער אַרײַננעמען אײַערע פּירלייגן אין דער רשימה דאָ. אויב איר ווילט פּרײַוויליק העלפֿן טיפּירן מער ווערטער מיט ייִדישע אותיות, פֿאַרבינדט זיך מיט שאַשקע־רייזל. דער ווייטערדיקער פֿאַרמאַט איז נישט פּערפֿעקט, אָבער ס׳איז אַן אָנהייב.)

The following glossary was developed from the glossary that Yankl Halpern gathered with the help of the email list called UYIP (Understanding Yiddish Information Processing). If you have additional words that you'd like to add, you should go to this website: <http://www.uyip.org/> to read about how to become a member of this discussion list. Please understand that this list is for discussion purposes only; this is only a work in process.

Dr. Mordkhe Schaechter is working now on a new Yiddish dictionary of words from the new world of technology. Our goal is to discuss this list a short time and add more words. After that, we'll invite Dr. Schaechter to take a look and to include what he wishes in his dictionary for the 21st century. We're inviting all of you now to participate in this important project!

(Shoshke-Rayzl Yuni typed this version. If you see typographical errors, send her a message at: [sjuni@nyc.rr.com](mailto:sjuni@nyc.rr.com) but all comments about the content itself should be sent only to UYIP for subsequent inclusion on this list. If you'd like to volunteer to help type more words in Yiddish characters, please contact Shoshke-Rayzl. The following form is not perfect, but it's a beginning.)

**KIRTSUNGEN:**

m -- loshn-zokher  
 f -- loshn-nekeyve  
 n -- loshn-stam  
 p -- loshn-rabim  
 a -- adyektiv  
 v -- verb  
 () -- mekoyrim (s'rov zenen umbakant) .
